

# GREEN LOOP

5KM, 30 TO 60 MINUTES

**MAJURA PINES**  
TRAIL ALLIANCE

If you have conquered **The Flash** and **Crazy Crab Walk**, why not try the **Green Loop**.

Ride through the underpass and then turn left on to **Wombat**. Keep following the green arrows around the loop.

The last trail that you will ride is **Cannery Row**. After that, turn right and back through the underpass.

This loop has a couple of longer climbs and the trails are a little more challenging. However it is a good introduction to the larger Majura Pines network.

The only slightly tricky junction is when you exit **Sleepy Hollow** - just before you enter the recently harvested trees - then veer right on to the un-named trail. Don't go down **Pooklestein**.

The whole loop is well signposted. However, if you have the free app TrailForks installed on your phone, point your camera at the QR code below for more details:
